To Whom It May Concern:

We have been using your *HeatSavr* product for the past year and we are entirely satisfied with its performance.

Prior to *HeatSavr* we had blanket covers on our three of our four pools and all four of our spas. Needless to say, these covers, their daytime enclosures, and the mechanisms used to roll and unroll them, were costly and required a substantial amount of maintenance.

With *HeatSavr*, we have eliminated the covers. Although we are using the same or slightly less gas for the pool and spa heaters, we have realized savings in labor costs as a result of using this product. We have had nothing but positive feedback from the residents of our 234 homes.

We would highly recommend *HeatSavr* to anyone who is currently using or considering installing a conventional pool cover.

Sincerely,

Meredith Schreiber  
Assistant Manager
